INTRODUCTION

TGA SOLUTIONS SDN BHD (TGAS) was launched in 9th July 2015 to manage 4,225 acres of Tanjong Agas Maritime Park (TAMP); formerly known as Tanjong Agas Oil & Gas and Logistic Industrial Park (TAOGLIP) at Pekan, Pahang Darul Makmur.

- The proposed TAMP Project is conceptualised for the development and promotion of world-class oil & gas industrial estate and general port facilities.
- Main components in TAMP consist of Marine and Shipping Facilities, Oil & Gas, Port Facilities, Supporting Facilities and Services.
- Development of Basic Infrastructure includes Dual Carriage Way, Water and Electricity Supplies and Telecommunication.
- Development of Commercial and Residential areas will be in tandem with the development of the Oil & Gas and Logistics Industrial park.

INTRODUCTION

- The Project has all the necessary support required for its implementation from the Federal Government, State Government and Pahang Royal Family and that would give an impetus to the development in the region.
- Pahang State Development Corporation (PKNP); the statutory body under the State Government of Pahang, has provided the entire land parcel on a 66 year lease (extendable further by another 33 years) to TGAS for development.
- TAMP comes under the supervision of East Coast Economic Region (ECER), one of the five growth corridors announced by the Government of Malaysia.

INTRODUCTION

- Project Components in TAMP.
 - Oil & gas industry refinery, tank farm, oil blending, petrochemicals.
 - Marine base activity Shipyard, Logistic Base and Fabrication yard.
 - Multi purpose general port wharf, lay-up areas, dry and liquid bulk terminals.
 - Property and industrial development to support the above key industries that include:
 - Small and medium enterprise industries.
 - Factories and warehouses.
 - Commercial centres and Maritime Business Park, housing for resident and staff quarters.
 - Training centres, 5 star marina centre, public utilities and tourist attraction centre.
 - Oil & Gas College and training centres.

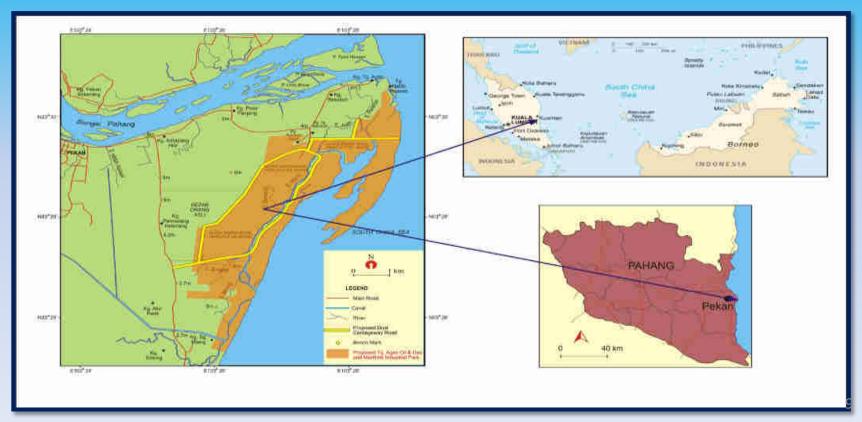

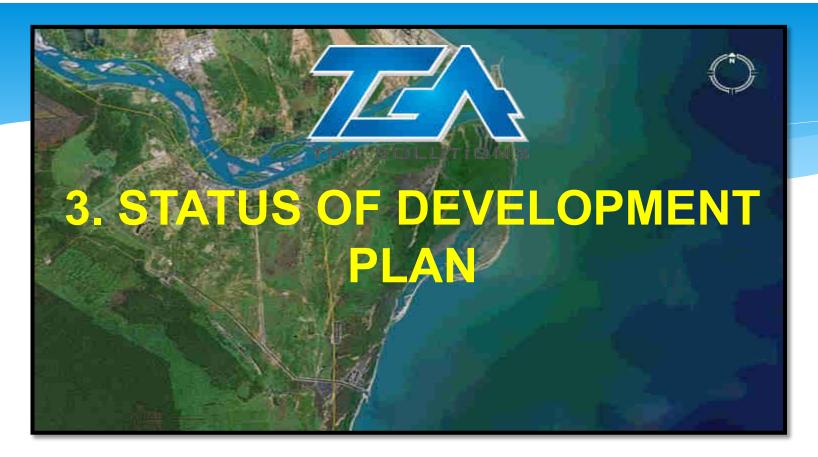

THE AREA & LOCATION

THE AREA & LOCATION

The Proposed Project is next to Pekan town in the District of Pekan, Pahang. The site is situated approximately about 50 km from Kuantan and 10 km from Pekan.

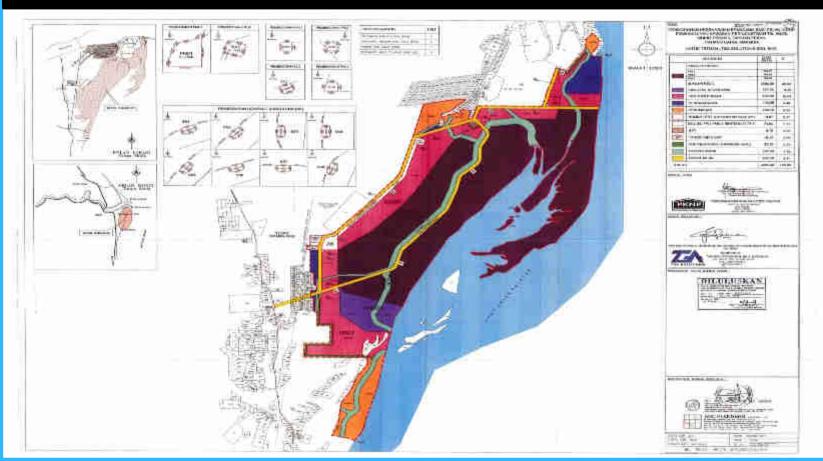

PHYSICAL DEVELOPMENT AND OVERALL PLAN

- * The development approach adopted by TGAS is to transform TAMP into becoming an advance industrial development area that focus on oil and gas, maritime and multi purpose ports.
- * To support the above, an array of small and medium industries will be developed within the vicinity. To also develop tourist attraction theme.
- * The development plan will also consider the following key factors:
 - 1. Development of the whole industrial areas
 - 2. Demand by investors and meet current market scenario
 - 3. To consolidate the original development plan with the latest market expectation

PERSPECTIVE VIEW

INVESTMENT OPPORTUNITY

WHY INVEST IN TAMP?

Supportive Malaysian Government Policies which promote and facilitate Foreign Direct Investment.

- * Malaysia is among the worlds Competitively Growing economics which offer conducive business and economic environment and attractive location of regional base.
- * Stable political environment and free from most natural disaster.
- Strategically located at the South China Sea & on the East and West trading route.

Developed Infrastructure and easily connected to highways and roads from town to TAMP. Modern Airport and Seaport facilities nearby. All areas are connected with high-tech telecommunication; i.e. Wi-Fi and broadband services.

- * Quality of life at affordable cost. Excellent facilities; i.e. International Schools, Universities, Medical Centres, comfortable residential, restaurants and shopping malls.
- * Trained and skilled workers are readily available as the government have set policies on generating talented people in the industries.
- Financial facilities equipped with sophisticated banks and banking system.
