

THIRD PARTY ACCESS (TPA): Gas Market Reform in Malaysia

National Investment Seminar 2018

30 October 2018

by

Rumaizi A Halim

Industry Planning & Development Department

Do you face these challenges?

SUPPLIERS

- How do I access the market?
- Who do I sell my gas to?
- How do I compete effectively?
- Who is going to build the pipeline?

BUYERS

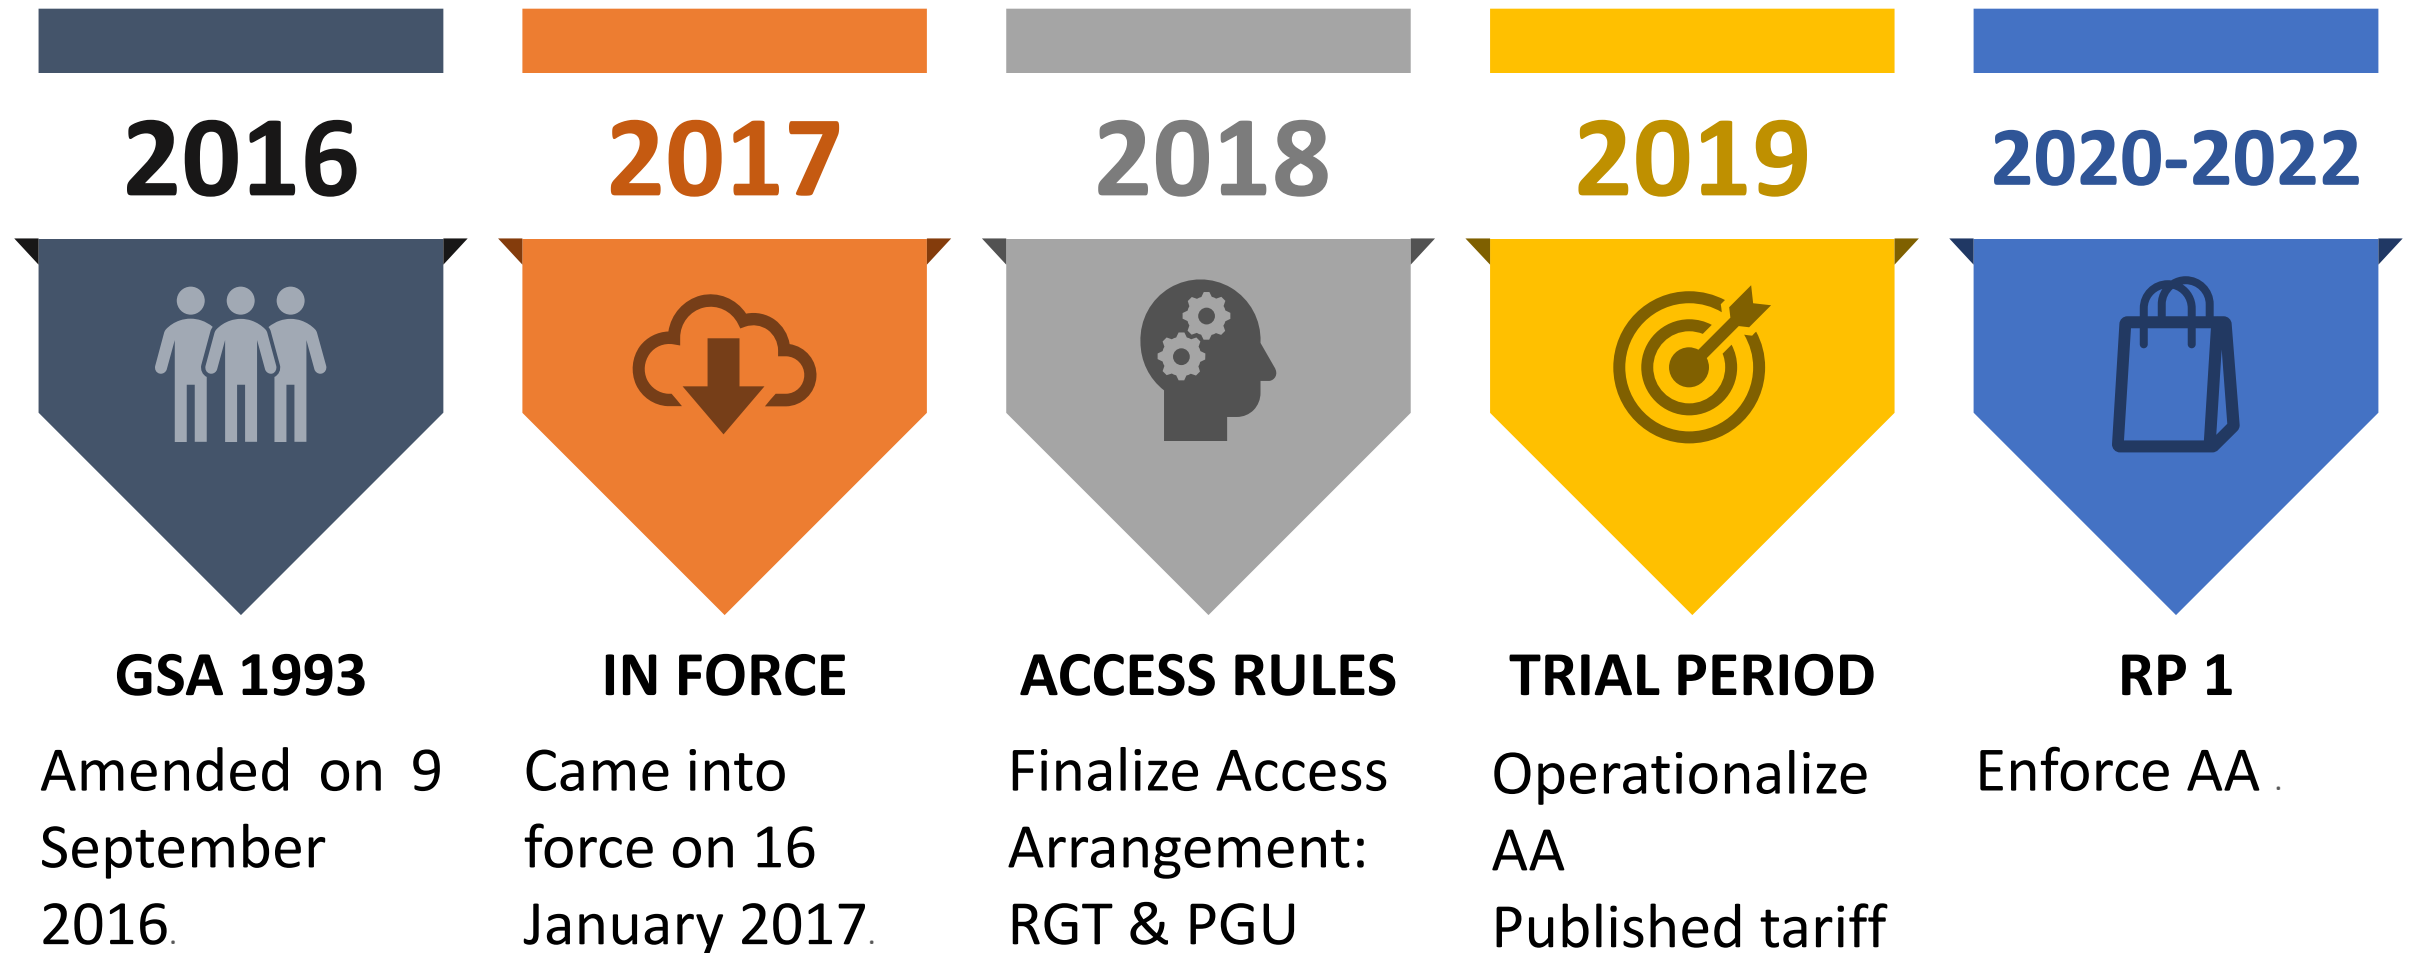

- Can I negotiate better terms?
- Where do I buy the gas from?
- My plant is far from pipeline.

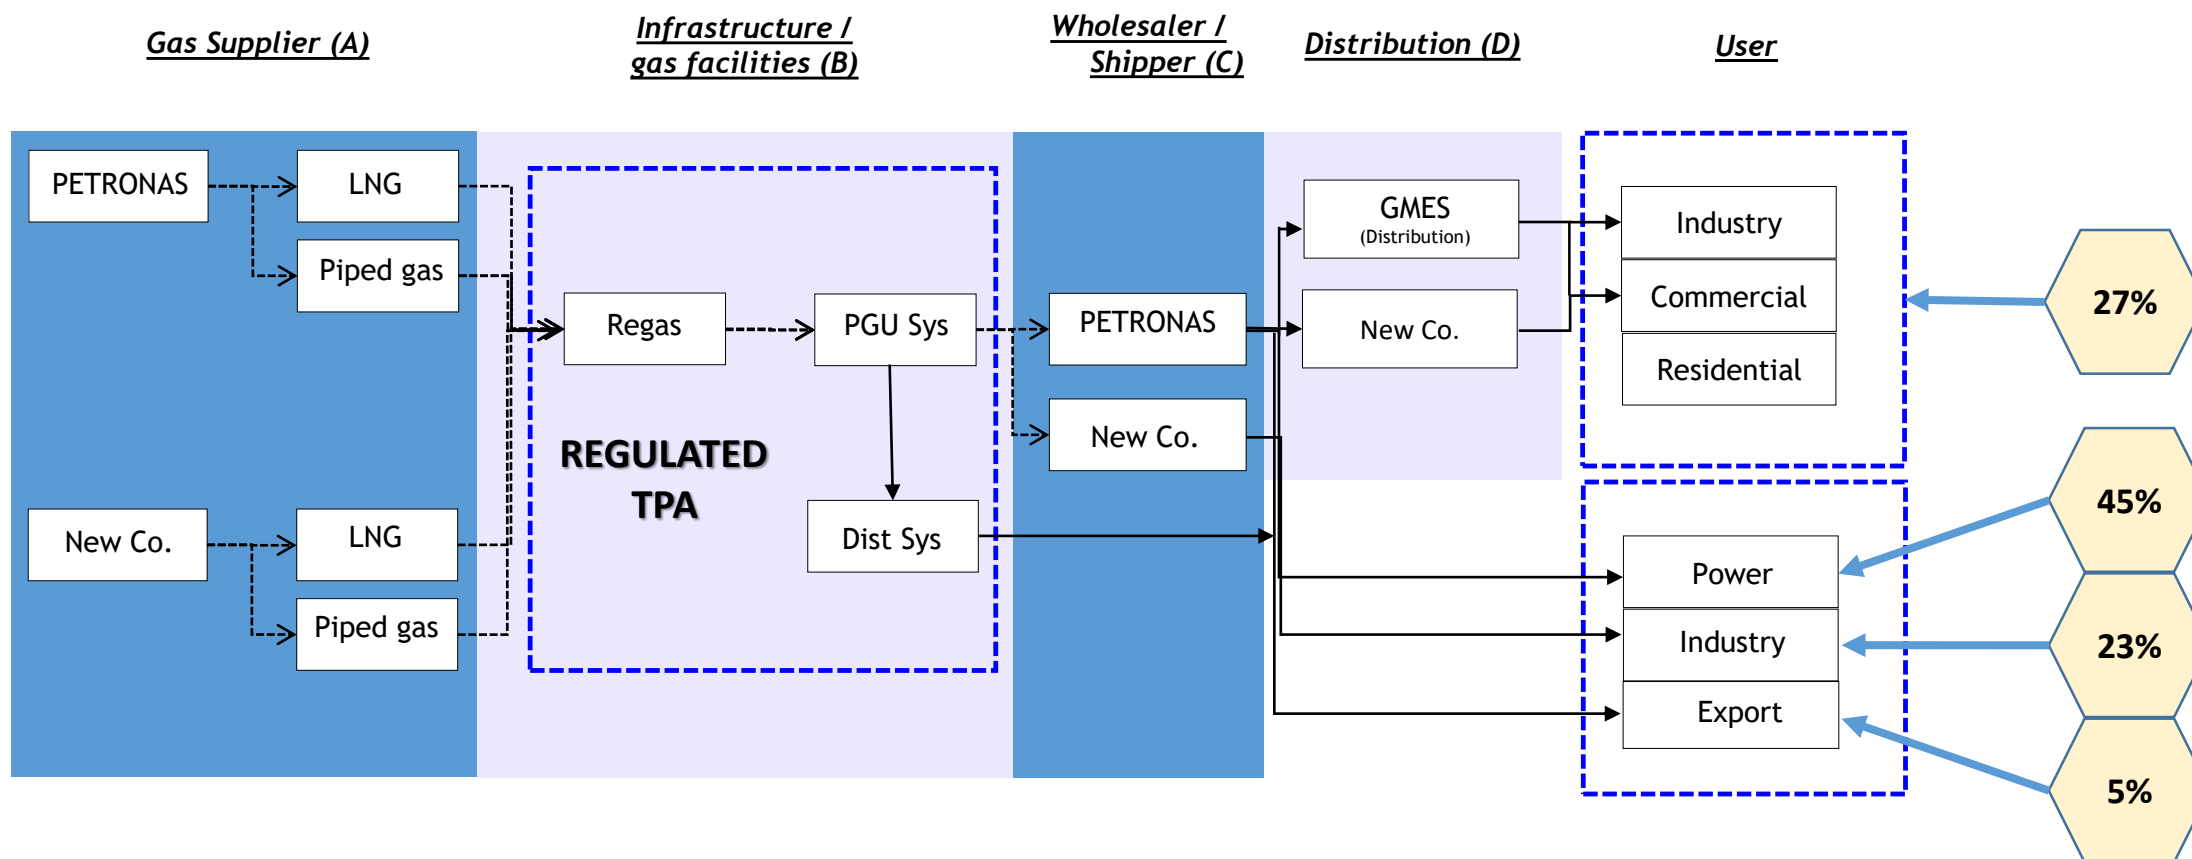

**These are the drivers for
market reform...**

- Enhance consumers choice
- Increase quality of services
- Promote competitive pricing
- Secure & sustainable supply

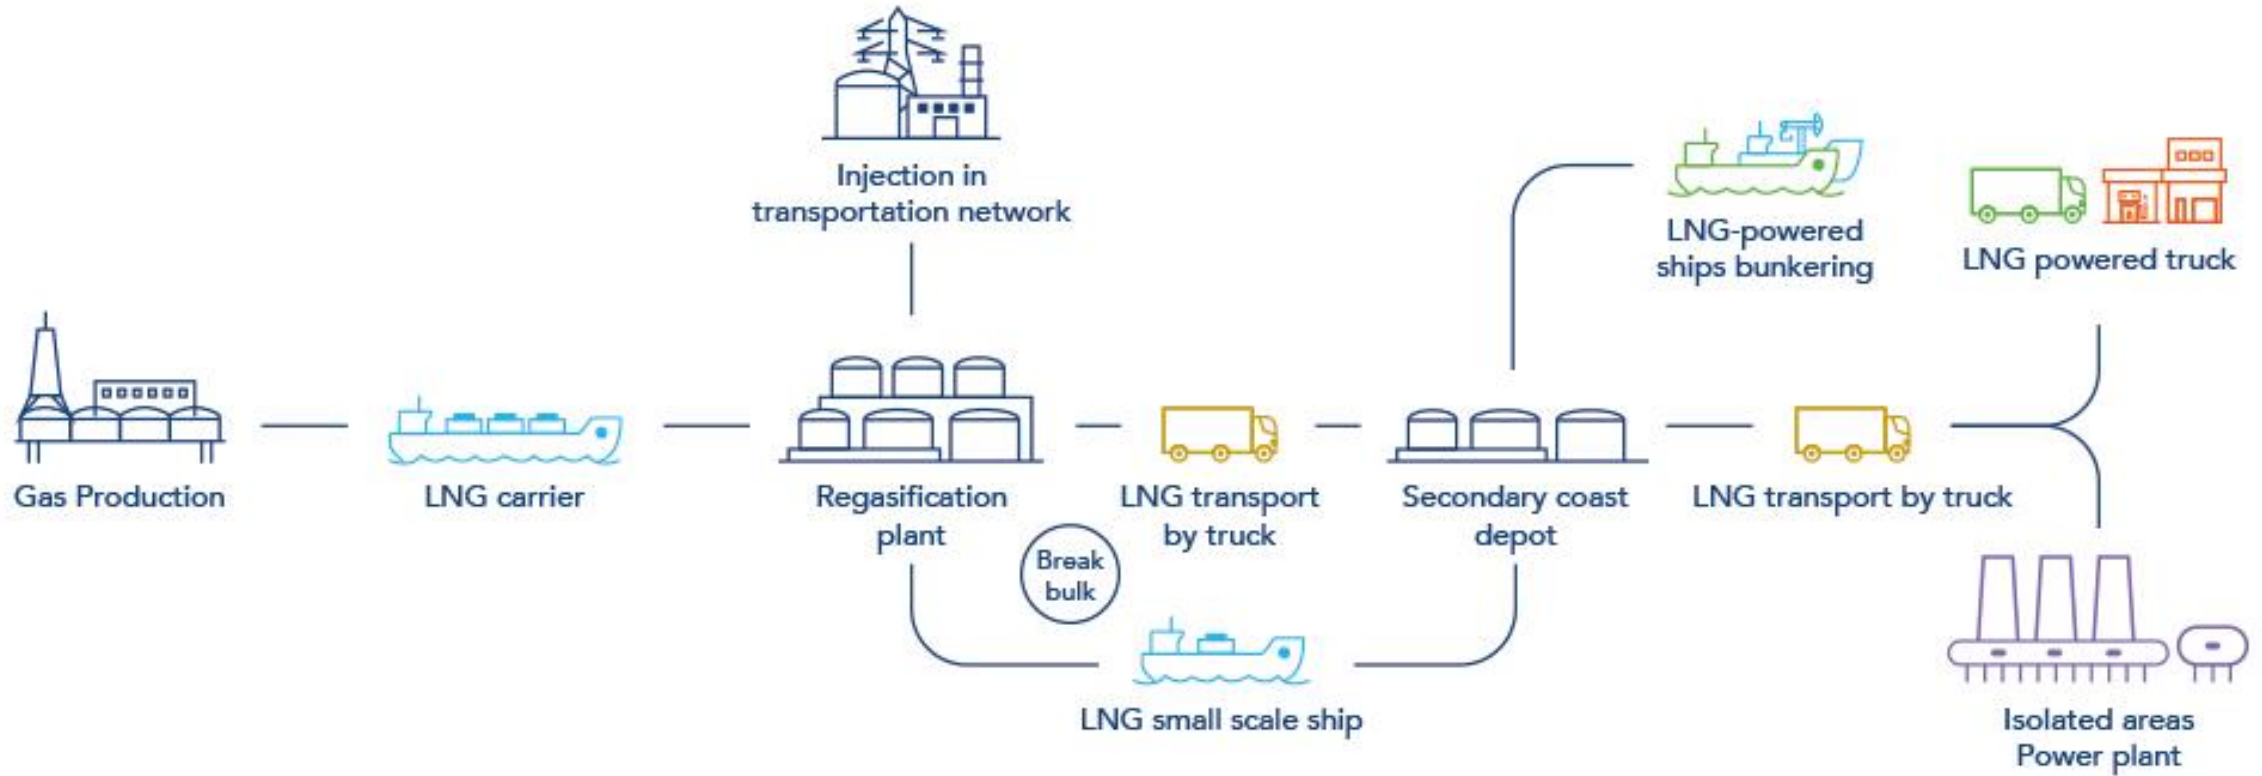

The reform was initiated thru RMK-11

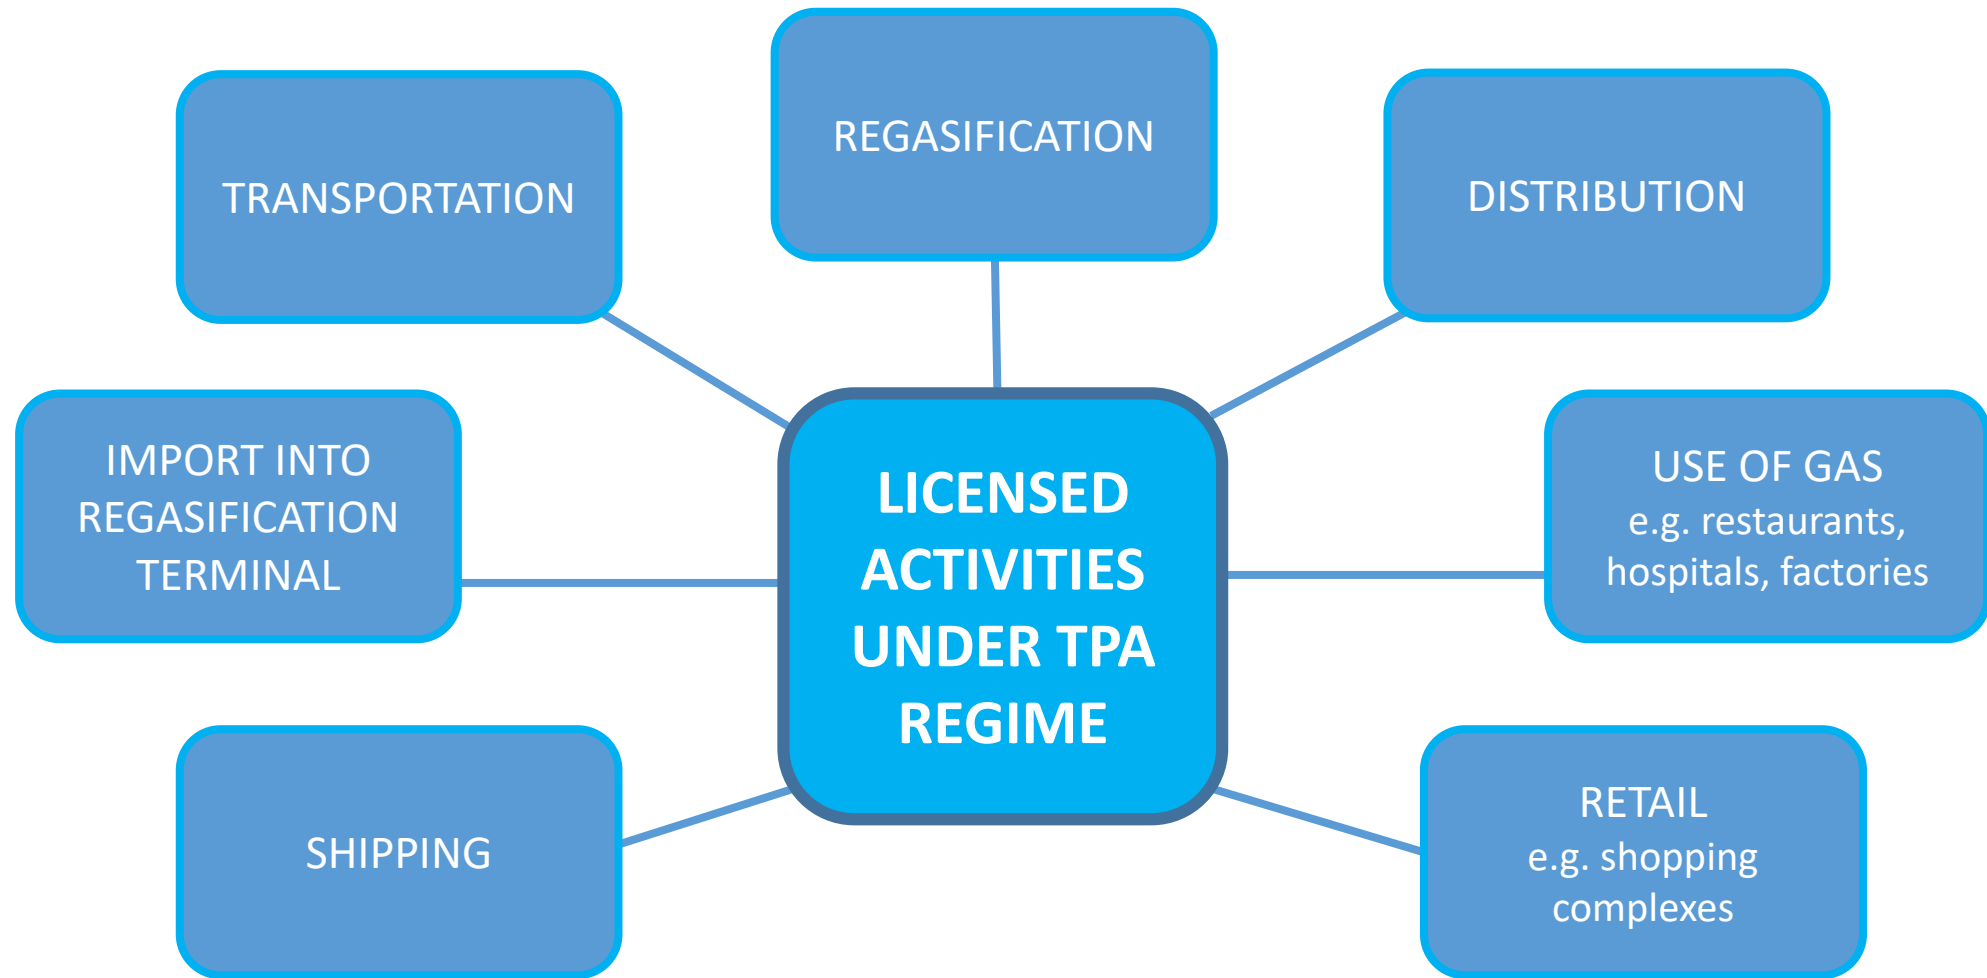

TPA PROVIDES OPPORTUNITIES ACROSS GAS VALUE CHAIN

Existing infra opens opportunity for virtual pipeline connectivity
