Overview of KULIM CITY

- ▶ Kulim as part of the Developing Region Hub in the northern region, which is a developing region and has influence at the regional level.
- ▶ Kulim Local Plan 2035 has outlined the industrial sector development plans as the main catalyst for the development of Kulim District by 2035. In line with this plan, Kulim Municipal Council has taken the initiative to prepare the **Kulim Industrial Corridor** 2035 master plan covering an area of 17,552 acres. It is located in the heart of Kulim District.
- ▶ To the south of it is the Kulim Hitech Park 1,2 & 3 area, to the West it is the main development area of Seberang Perai and Penang and in the North is the development area of Kulim XP Airport which will be developed in the near future.
- ▶ The proposed KXP Airport in northern Kulim District will have a direct impact on the development of Kulim Industri Corridor. Kulim Hitech Park expansion is a prime target in Kulim Industrial Corridor area development plans

Industrial Investment IMPACT

ECONOMIC

Malaysia registered RM80.6 billion worth of approved investments for the first quarter of 2021, a surge of 95.6 per cent from the same period in 2020 with the manufacturing sector leading the investment for the period concerned.

ENVIRONMENT

Support medium-to long-term sustainable economic growth, improved socio-economic inclusion and enhanced environmental sustainability

SOCIAL

Malaysia Digital Economy Blueprint identified six strategic thrusts: drive digital transformation in the public sector, boost economic competitiveness through digitalisation; build enabling digital infrastructure; build agile and competent digital talent; create an inclusive digital society; and build trusted, secure and ethical digital environment.

Kulim, Kedah Darul Aman.

(U/P: Dr. Haji Nadzman Bin Mustafa, AMK., BCK.)

EXPRESSION OF GRATITUDE TOWARDS MAJLIS PERBANDARAN KULIM KEDAH (MPKK) FOR INVALUABLE SUPPORT

I am honoured to hereby record our heartfelt gratitude to Majlis Perbandaran Kulim Kedah (MPKK) for their invaluable support in the establishment of Aspen Glove Sdn. Bhd. in Kulim Hi-Tech Park.

MPKK is a driving force to be reckoned with, and their guidance every step of the way was instrumental in our achievement of E10 (Export in 10 Months) Initiative. Together we have achieved a monumental task, that would have otherwise been quite arduous. It is a significant accomplishment for both MPKK and Aspen Glove Sdn. Bhd.

They assisted us in making inroads with the relevant authorities and in us gaining statutory approvals with the relevant authorities, technical departments and governmental institutions.

MPKK's professionalism and dedication in handling all matters is exemplary. Thanks to their resolute commitment we have been able to accelerate our approval processes to meet critical timelines. They have also been consistent in updating us of real-time progress, especially in the obtaining of approvals.

MPKK's expertise, in-depth knowledge and experience was tremendously beneficial, as they provided expert guidance to enable us to get resolutions and solutions right from the beginning of the completion of our facilities and factory.

The entire experience from the planning stages to the E10 was incredibly productive and efficient. Kudos to the team at Majlis Perbandaran Kulim Kedah.

Thank you.

Yours faithfully,
ASPEN GLOVE SDN BHD

IR. ANILARASU AMARANAZAN
GROUP MANAGING DIRECTOR

"instrumental in our achievement of E10 (Export in 10 Months) initiative"

"we have been able to accelerate our approval processes to meet critical timeliness"

"The entire experience from the planning stages to the E10 was incredibly productive and efficient"

Harmonious ethnic relations whereby people get along well and the most important factor, the strong support and service from the state and local Governments." said

Mr Xie Jian,
President of Risen Energy Co.Ltd

MEDIA RELEASE

FOR IMMEDIATE RELEASE

RISEN ENERGY: ITS FIRST INVESTMENT IN SOUTH EAST ASIA

XXXXX, 24 JUNE 2021 – Risen Energy, one of the pioneers in the solar industry with extensive expertise in photovoltaic R&D and provision of end-to-end solutions for the entire solar value chain manufacturing, has announced its first investment in South East Asia. The project is under construction and progressing smoothly. It will be completed by the end of this year, while commercial activities are expected to begin in Q1 2022.

Over 3,000 employment opportunities, with 800 Managerial, Technical and Supervisory (MTS) positions, including 500 engineers will be offered. This new facility in Malaysia will contribute an annual production capacity of 3GW for the first five (5) years.

The company is expanding its global presence by opening its latest production base in Kulim Hi-Tech Park, Kedah, Malaysia in response to the strong support and facilitation provided by the Malaysian Government. Selecting Malaysia as the first production facility in South East Asia, Risen Energy is set to produce the latest bi-facial technology solar products to cater to the growing global market.

This project is an investment approved under the PENJANA Incentive Scheme, which was launched on 5th June 2020 in supporting the expansion of international investment projects to Malaysia.

"The competitive advantages of Malaysia's investment environment are mainly reflected in the following aspects: strategic location, located in the core area of Southeast Asia; solid economic foundation and good economic growth prospects; abundant raw materials resources; the high quality of human resources; harmonious ethnic relations whereby people get along well and the most important factor, the strong support and service from the state and local Governments." said Mr Xie Jian, President of Risen Energy Co. Ltd.

"Risen Energy has clearly shown confidence in Malaysia as an investment destination of choice even as the world faces the challenges of the COVID 19 pandemic. With the strong support from you, we will continue our commitment to Malaysia in the future." he added.

YB Dato' Seri Mohamed Azmin Ali, Senior Minister and Minister of International Trade and Industry (MITI) in responding to the Company's announcement said, "The Government would like to welcome this investment into Malaysia, as it represents a key win for Malaysia in proofing our efforts to source for high-quality investments from international companies. We believe this project will boost
