MATRADE'S ORGANIZATION OF KNOWLEDGE PRACTISES

The organization of knowledge refers to the systematic arrangement and classification of information to make it accessible and usable. It involves various methods and tools to structure, store, retrieve, and manage knowledge effectively. Here are the key aspects involved:

ONE

CLASSIFICATION SYSTEMS

- Include taxonomies, ontologies, and categorization schemes that group information into hierarchical structures.

TWO

INFORMATION ARCHITECTURE

- involves designing the structure of information systems, such as portal/ websites, databases, and intranets, to facilitate easy navigation and retrieval of information.

Topic • INDUSTRY • BUILDING/CONSTRUCTION MATERIALS AND HARDWARE

THREE

METADATA & INDEXING

- involves designing the structure of information systems, such as portal/websites, databases, and intranets, to facilitate easy navigation and retrieval of information.

Dublin Core Element Name : Title

Term Name	Title
Label	Proper Title (M)
Definition	A name given to the resource
Comment	Typically, Title will be a name by which the resource is formally known.
Reference	

Dublin Core Element Name : Title

Term Name	Title
Label	Alternative Title (O)
Definition	An alternative name for the resource.
Comment	The distinction between titles and alternative titles is application-specific.
Reference	

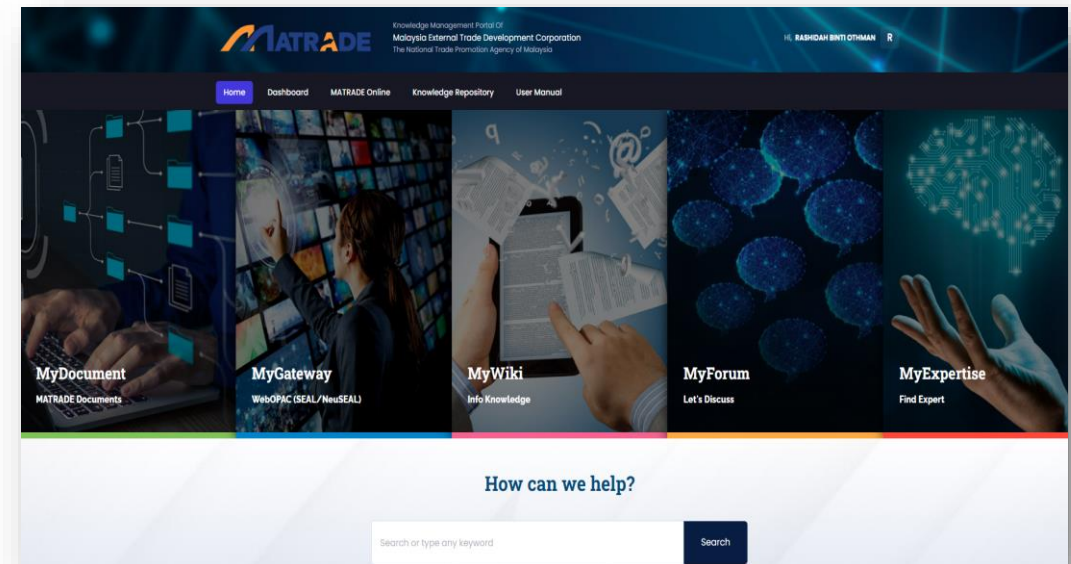

Dublin Core Element Name : Title

Term Name	Title
Label	Main Program Title (O)
Definition	A program name given to the resource
Comment	
Reference	Program/Event/Activity Taxonomy

FOUR

KNOWLEDGE MANAGEMENT SYSTEMS

- a platform that help capture, store, share, and manage knowledge within an organization.

MATRADE'S ORGANIZATION OF KNOWLEDGE PRACTISES

FIVE

LIBRARIES & ARCHIVES

- use cataloging, classification, and indexing methods to organize books, documents, and other resources

SIX

DATA MANAGEMENT

- involve organizing data in databases, data warehouses, and other data storage systems, ensuring data integrity, and facilitating data analysis and reporting.

Matrade eyes cumulative export increase of RM5bil by 2025

KUALA LUMPUR: Malaysia External Trade Development Corporation (MATRADE) eyes to achieve a cumulative export increase of RM5 billion by 2025, to be contributed by 380 Mid-Tier Companies (MTC) under its Mid-Tier Companies Development Programme (MTCDP).

Chief executive officer Datuk Mohd Mustafa Abdul Aziz said the MTCDP which was launched in 2014, is the only high-impact exporters' development programme in Malaysia's five-year development plan, aimed to accelerate export growth, enhance their global competitiveness and promote Malaysian homegrown brands in the global marketplace.

The MTCDP targets export-oriented MTCs with annual revenues of between RM50 million and RM500 million for manufacturing companies and RM20 million and RM500 million for services companies. Since its inception, the programme has managed to outreach and groom 275 MTCs from various sectors and industries and this year the programme will onboard another 25 well-established MTCs including 14 companies from the manufacturing sector plus 11 companies from the services sector, he told reporters at the MTCDP Wave 8 kick-off event here today.

He noted that despite consisting of only two per cent of registered business establishments, MTCs are critical to the strength of the Malaysian economy, collectively contributed 40 per cent of Malaysia's Gross Domestic Product and support 16 per cent of the workforce, helping communities all over the country to prosper. "MTCDP in 2022 will be focusing on high
